

Year 9

Stationery List for 2026

Please note: Across Year 9, all students will study English, Maths, and Science (one year of study), as well as History and HPE (one semester of study each). These items are required for all students.

Other subjects may be experienced as electives in Year 9, with two electives per semester. Elective offerings are subject to change due to staffing, changes in enrolments and class placements, and circumstances beyond our control. For these rotational subjects, families may choose to wait until timetables are confirmed – once school terms have commenced – to ensure their child has the correct items for their term of study.
