

Pine Rivers State High School

“By different ways to excellence”

2017 Annual Improvement Plan

Deep Learning Process

We believe Deep Learning occurs when a learner uses acquired knowledge, understanding, insight and thinking skills to solve a range of problems. They work independently or collaboratively, often leveraging digital to create innovative solutions and pose critical questions. Through their development of self-reflection, inquiry and perseverance, successful learners face new challenges with confidence and tenacity.

ENDORSEMENT

This Annual Implementation Plan, and associated budget, was developed in consultation with the school community and states the key priorities and strategies that meet school needs and departmental requirements.

Mr John Schuh
Principal
